Product Catalog

NEW PRODUCT YEAR 2025

Flexible Magnetic Material

Kings Magnet Flexible magnetic material is ideal for all kinds of consumer and business applications, including signs, ads, photos, industrial, and arts and crafts projects. Flexible magnets come in sheets and strips, in a variety of pre-cut and custom sizes.

Our custom cutting services, plus a wide range of magnet thicknesses and laminates will meet any customized project application requirement.

Not sure where to start?

Don't worry, you have a variety of options!

Take a look at our Flexible Magnets catalogue to see our range of flexible products

Contact our flexible magnet experts for complementary advice.

We'll help you choose the best product for your project.

Please note that not all of our products are listed in the catalogue, so if you need a product that you can't find here, please contact us and we will help you.

Enhance your application

Custom designed extrusion and custom cut parts to fit your specifications. Standard and high energy strip. Magnetized with the correct pattern for your application, or not magnetized. Strip available with pressure sensitive adhesive backing.

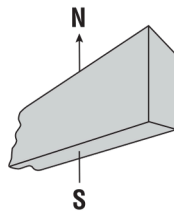

Maximum Energy Product ($BH_{max} \times 10^6$)	.078	Specific Gravity	3.7
Residual Induction B_r (gauss)	1850	Hardness	Shore D52
Coercive Force H_c (oersteds)	1500	Ultimate Tensile Strength psi	1000
Intrinsic Coercive Force H_{ci} (oersteds)	2400		

Higher energy values available upon request.

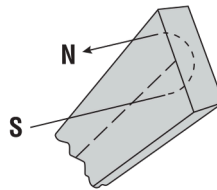

Common magnetisation directions

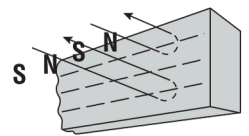

(1) Conventional Through Thickness

(2) Through Width

(3) 2 Poles One Side

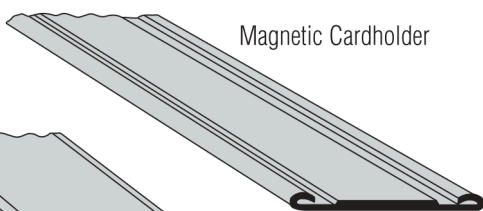

(4) Multiple Poles One Side

ADHESIVE**

**WITH PVC
COATING**

Key Features:

- Material: Rubber bonded Ferrite/NdFeN/SmFeN magnetic material
- Form: Continuous rolls, easy to cut and shape
- Magnetization: Isotropic or anisotropic (customizable)
- Thickness: From 0.3mm to 2mm
- Width: Standard 620mm (custom sizes available)
- Length: Common lengths: 15m, 30m, 50m, or customized

Surface Options:

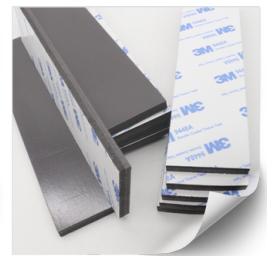

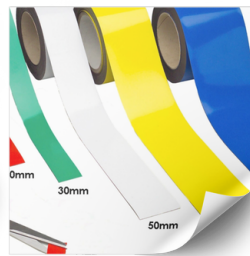

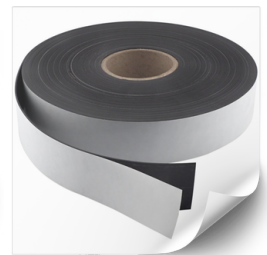

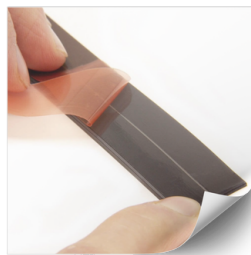

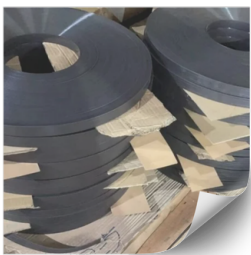

- Plain (black magnetic surface)
- Adhesive-backed (with or without 3M adhesive)
- Laminated with PVC, paper, or dry-erase film

TAPES SHAPE

- Maximum length 30M;
- Maximum width 1.2 M;
- Maximum thickness 0.3-2mm;

AVAILABLE
CCUSTOM

- Size
- Performance
- Coating
- Adhesive

Key Features:

- Material: Isotropic or anisotropic rubber magnet
- Form: Narrow strip/tape (roll format)
- Width: Typically 10mm–50mm (customizable)
- Thickness: 0.8mm–3mm standard
- Magnetization: Single-side magnetic, usually multipole on the face
- Length: 15m, 30m, or customized roll length

Surface Finish Options:

- Adhesive backing (standard or 3M)
- Color laminated (white, brown, gray, etc.)
- Printable or writable surface .

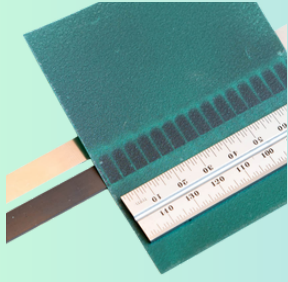

Advantages:

- Easy to cut, bend, and handle
- Strong adhesion when paired with 3M tape
- Ideal for smooth, flat, non-metal surfaces
- Clean, reusable, and removable
- Available for indoor and light outdoor use

Applications:

- Sign mounting and removable displays
- POP retail signage and price tags
- Magnetic label holders for metal shelving
- Home and office organization
- Magnetic closures for doors, boxes, or packaging
- Craft projects and DIY applications
